

03 - THE LIKES OF YOU AND I

<http://www.macnoise.de>

(Levellers)

em/D/A

Do you ever stop to think from time to time
em D A
About the way the world's been left behind
em D A
In another place in another time
em D
We could maybe change the way we think,
A em/D/A
Take the blinkers from our eyes

Do you think that maybe she was not alone ?
Do you think there's someone out there ?
Do you think that they might know
And if they don't do you think they should be told
'Cos she's living in a nightmare running out of her control

Chorus: em
Take the rope
D A
Take the blindfold from your eyes
em
Take the rope from around your neck
D A
And take the blindfold from your eyes
G
And you'll never be surprised when they tell you that they love you
em
While they're eating you alive

Do you think you have the strength to carry on
Or has the black cat got your tongue
Don't worry now the world will be alright
Cos the land has been here longer
Than the likes of you and I

Chorus
